

Technical Sheet Room: Aria Room

Location: Hotel Aria, located opposite the Aqua Hotel

Position: First floor

Measurements:

- Area: 225.10 sqm
- Height: 3 meters
- Length: 14.00 meters
- Width: 16.07 meters

Features:

- **Brightness:** Spacious room naturally lit through **large windows**, with the possibility of **complete darkening** in only 9 seconds via **remote-controlled mobile curtains**, ensuring perfect visibility for projections under any light conditions.
- **Lighting:** Advanced lighting system equipped with a **central ceiling light** and **LED spotlights** distributed throughout the room, offering **10 different lighting modes** to perfectly adapt to each type of event.

- **Stage:** Composed of **3 modules**, each platform measures 1.94 cm x 1.66 cm with a height of 20 cm, allowing for a **flexible configuration** of the space according to specific needs.

Technical Equipment:

- **Connectivity:** Floor box system near the podium for **HDMI, VGA, AUDIO connections, 220 V electrical outlets**, enriched by future-oriented connectivity options such as support for **4K inputs** and **integrated Wi-Fi**.
- **Control Room:** Complete control room rack with **4 audio outputs** for microphones (1 handheld, 2 fixed, 1 lapel), in addition to **video and audio output, network cable, and Wi-Fi connectivity**, for impeccable audiovisual management.
- **Audio:** **Kam Kwm 1960** ceiling amplification system from **Top Pro Music Gear**, ensuring **clear sound** and **uniform coverage** throughout the room.
- **Visual:** Generously sized screen (**300 cm x 200 cm**) paired with the new **Epson EB-L730U** ceiling projector, offering a brightness of **7,000 lumens** for sharp images and brilliant colors in any lighting condition, and **WUXGA resolution** for extremely sharp Full HD images. Future-oriented connectivity option. Support for **4K inputs, HDBaset**.
- **Additional Displays:** **2 networked 85-inch Samsung TVs**, ensuring optimal viewing from every part of the room.
- **Electricity:** **5 strategically distributed 220 V electrical outlets**, plus an **external point** at the entrance door for secretarial needs.

Capacity:

- **Theater setup:** up to **180 people**
- **Classroom setup:** up to **120 people**

Strategically located on the first floor, this room offers a **bright and welcoming environment**, thanks to its **large windows** that guarantee **exceptional natural light**.

It's the perfect setting for **medical meetings, union congresses, or school desk training sessions**, where light plays a key role in maintaining **attention** and **well-being** of the participants.

The **Aria Room** easily adapts to various types of events, thanks to its **flexible configuration** that can accommodate up to **180 people** in theater style and **120** in classroom style.

The room is equipped with **cutting-edge technology**, including **adjustable lighting** with **ten different settings**, to create the perfect environment for every occasion.

The **latest generation technical equipment**, with **high-quality audio and video systems**, ensures that every presentation is **crystal clear and engaging**.

Moreover, the ability to quickly darken the room with **remote-controlled mobile curtains** allows switching from a bright to a more reserved environment in just 9 seconds, offering **maximum versatility** to adapt to the specific needs of each event.

Choosing the **Aria Room** means prioritizing a space where **elegance and technology meet**, ensuring a **high-level experience** for organizers and participants. A place that not only hosts events but **enhances** them, making them **memorable**.
